
DESIGN GUIDE

Industrial and Lift Truck Pneumatic Tyres

INDEX	PAGE
Calculation of tyre dimensions	IP.2
Maximum envelope for grown tyres in service	IP.2
Nomenclature	IP.2
Theoretical rim width (a_1)	IP.3
Measuring rim width (a)	IP.3
Design section width (s)	IP.3
Maximum overall width in service (s_G)	IP.3
Design section height (h)	IP.3
Design overall diameter (d)	IP.3
Maximum overall diameter in service (d_G)	IP.3
Minimum dual spacing (SP_{min})	IP.4
Tread code and design tread depth	IP.4
Guidelines for metric series	IP.5
Preferred nominal section width steps and existing rims	IP.5
Preferred nominal section width steps and existing rims	IP.5
